

Ugo Sanchez wants to play

TECHNICAL SHEET

Duration: 45 minutes

Set-up: 4 hours

Break down: 2 hours

The show can be performed in both theatre and outdoor sites (squares, courtyard, gardens etc.), and frontally to the audience.

Performing Area

Stage preferably with frontal steps from the auditorium or flat and non detached area of 7x5x4 meters (please state clear if sloping stage).

Sound system

At the expense of the company (we require a three-phase power supply of total load of at least 3 kW).

Lights

In theatre: white basic scene light with at least 4 PC lanterns per 1000 watt and 2 PC lanterns per 1000 watt for backlight, plus 2 PC lanterns on the public, or a way to manage light in the hall from direction (for a total of 8 PC lanterns or PAR lanterns).

Outdoor sites: a good white basic scene light with at least 2 PC lanterns per 1000 watt and 1 PC lantern on the public.

At least two separate electric socket of 3 kW each (one for lighting system and one for audio system).

A room or a dressing room with facilities and electric sockets, preferably very close to the stage.

A beer (preferably fresh).

Seated audience preferred.

Other conditions will be evaluated with the company.
